- **Thesis:** Cost-Efficiency of Modernizing Electrical Schemes for Overhead Bridge Cranes
- **Relevant Coursework:** Environmental Protection; Electrical Engineering; Entrepreneurship; Applied Statistics
- **Relevant Competencies:** Project Management; Electrical Design; Renewable Energy Integration

Experience

AGRAMKOW A/S Data Analyst in Sales

Sønderborg, Denmark
[12.2023 -present]

- AGRAMKOW is a solution provider for manufacturers of cooling and air-conditioning all over the world. My role is to assist AGRAMKOW's Sales department in data and market analysis.
- **Key activities:**
 - Management of Business Intelligence and Data Analysis project
 - Developing the data structure for data analysis
 - Development of a UX-friendly BI dashboard with relevant insights and KPIs for data-driven decision-making
 - Advisory on further development paths and data culture
- **Key competencies:** Business Development, Data Culture, PowerBI dashboard, SQL database, Databased Decision Making, Sales Funnel Optimization, Project Management

SEABUD (Start-Up) Business Developer & Co-Founder

Remote Work
[12.2022 -01.2024]

- At SeaBud we are developing an innovative organic fertilizer that will make the greens on our tables tastier while also mitigating the negative effects of conventional agriculture on the environment.
- **Our progress:**
 - Developed an innovative multiple-income stream business model
 - Established contacts with potential clients
 - Developed the first prototype
 - Reached finals of national start-up competition – Venture Cup
- **Key competencies:** Cross-disciplinary management, Business Modeling, Business Plan, Fundraising, Idea Pitching, Team Management, R&D, Product Development, Marketing and Sales, Pivoting, Supply Chain Management, Problem-Solving, Networking

KONECRANES Engineer

Tallinn, Estonia
[10.2018 - 08.2022]

- **Overview:** Aligned with the company's slogan: "Lifting Not Just 'Things, but Entire Businesses", I offered our clients a complete service of their cranes and other machinery together with practical advice on how production processes can be improved.
- **Activities** of this multi-disciplinary role included:
 - Troubleshooting industrial equipment (cranes, CNCs, presses, etc.) in order to restore normal production processes for clients
 - Selling modernization/upgrade projects
 - Developing scope of work with clients (B2B)
 - Design of electrical diagrams
 - Project coordination (incl. international)
 - Preparation of price quotes
- Through my close collaboration with different clients, I gathered unique insights into various industries and learned to build trustful customer relations based on professionalism and goodwill.
- **Key competencies:** Customer Trustworthiness, Project Management, Customer-Oriented Business Development, Six Sigma Troubleshooting, Problem-Solving Abilities, Leadership and Responsible Decision-Making

ENEFIT SOLUTIONS

Laboratory Technician

Narva, Estonia
[04.2018 – 10.2018]

- **Overview:** In the laboratory of the biggest powerplant in Estonia, my work was based on maintaining the safe operation of turbo-generators and high-voltage transformers.
- Being responsible for automatic control and protection circuits **my tasks included:**
 - Inspections
 - Conducting electrical tests
 - Finetuning sensors
 - Troubleshooting malfunctions
- **Key Competencies:** Electrical Knowledge, Safety Protocols, Troubleshooting, Preventive Maintenance, Teamwork, Data Analysis

EASTMAN

Electrician

Kohtla-Järve, Estonia
[03.2017 – 04.2018]

- **Overview:** In a chemical factory, I worked in an electrical service team. Due to the dangerous and sometimes hazardous environment of a chemical plant, regular maintenance, and repair of equipment were executed in accordance with strict safety protocols.
- **Key tasks:**
 - Adhering to safety protocols and ensuring safety for all stakeholders
 - Preventive maintenance
 - Emergency repairs
 - Collaborations with team members and other departments
 - Documentation

Key Competencies: Modern Safety Protocols, Cross-Department Collaborations, Troubleshooting, Teamwork

STIVIS

Mechanic

Muuga, Estonia
[04.2016 – 03.2017]

- **Overview:** At the cargo terminal of the seaport of Muuga, I was responsible for minimizing the downtime of the ship loading-unloading process to help the company avoid demurrage charges.
- **Challenge:** The first job of my career with this scale of responsibility. Under stressful conditions and narrow timeframes, I could rely solely on my own skills and wit. Some of the challenges included:
 - Troubleshoot the reason why machinery stopped the production process
 - Develop a comprehensive plan of required actions, taking into account available resources
 - Efficiently execute the plan and restore the loading/unloading process
- **Result:** I learned all the electrical schematics by heart, developed appropriate troubleshooting methodology, identified the most common breakdowns, and prepared all supplies that were necessary to respond quickly. A few weeks into this new position I was able to comfortably secure the continuous work process of a terminal.

Key competencies: Troubleshooting, Ability to navigate under stress; Problem-Solving, Technical Literacy

Leadership and Activities

HANDELS-KOLLEGIET

Board Member

- Organizing social events
- Allocating budget
- Improving staying experience for residents

Sønderborg, Denmark

[01.2023 - present]

SUSTAINABILITY ACADEMY

Selected Participant

Odense, Denmark

[06.2023 - 07.2023]

- **Overview:** The summer school with guest lectures from Danish authorities and leading scientists in the field of sustainability. The focus was on addressing global and local climate change challenges and exploring potential solutions.
- **Result:** Designed a small project to raise awareness of waste sorting through an interactive trash disposal experience.

About

For me, business always takes the front seat, so it's work before play. However, when it does come to my free time, I am a proponent of a healthy lifestyle, which helps me to stay ready for everyday challenges and stay fit both mentally and physically. I'm a regular at the local gym and follow a good Estonian tradition of saunas and cold plunges. When I'm not sweating it out at the gym or in the sauna, I'm diving into books, tuning into podcasts, and immersing myself in music, which is a huge part of my life. In general, I'm always up for new experiences, be it DJing, riding motorcycles, or exploring embedded software.
